

FIRST 100 DAYS

DELIVERING FOR NEW JERSEY'S THIRD DISTRICT

A MESSAGE FROM CONGRESSMAN ANDY KIM

I've started each of my town halls by reminding you, the people of New Jersey's Third District, that you're the boss. I do that because I'm committed to honoring that role. My highest priority in Washington is representing you, your family, your needs and your priorities.

I'm proud of what we've already accomplished in our

first 100 days. I've taken my direction from you and am focused on lowering health care costs, fixing the broken system in Washington, fighting for those who serve or have served, helping our small businesses and listening to our neighbors. I'm humbled by the opportunity to represent you and I look forward to building on the progress we've already made.

Health care is an issue that deeply impacts every family in our community, and with rising costs, it's one of their greatest concerns.

New Jersey families need relief. I've met with health care experts and constituents from around our district and have brought their ideas back to Congress to advocate for change that will make an impact now.

Andy Kim, For the Inquirer

Our Congress can't work unless it works for us. I've heard from so many across New Jersey that think Washington has stopped listening and isn't working in their best interests.

Fixing our broken system means giving everyday Americans an equal voice at the table and shining a light on dark money and shady ethics.

From those currently serving at the Joint Base, to the tens of thousands of veterans that call our district home, one of the great honors of my job is fighting for those who have fought for us.

As a member of the House Armed Services Committee, I spend every day working to advocate for the Joint Base and will always stand up to bring more resources to New Jersey to help those who served our country.

Our district is a small business district. The vast majority of people throughout New Jersey work for a small business, which means that fighting for those job creators and working people in Congress is critical.

As the chairman of a critical subcommittee, I can advocate for our small business owners and help them grow.
